Premium Connectivity

Built for New Mexico Businesses

Smart. Fast. Reliable.

SERVING SOUTHEAST NEW MEXICO SINCE 1949

Built for what's next. Delivered locally.

PVT delivers premium connectivity and technology solutions—fiber internet, voice, managed networks, surveillance, and carrier-grade infrastructure—for organizations that cannot afford downtime. Plus, exceptional service from a team based right here in New Mexico.

For generations, we've earned this community's trust. Today, that legacy powers a future-ready network that will scale alongside your business, so your team can focus on what you do best.

Why PVT

- **Custom technology solutions designed for your business,** with local professionals who take the time to understand your goals, challenges, and operational needs.
- **Reliable connectivity built for business,** so your employees, customers, and critical systems stay connected.
- **Local support from a team that knows New Mexico,** providing personalized service and faster resolution when you need help.
- **Proactive monitoring with immediate response,** helping prevent issues before they impact your business.
- **Scalable technology solutions,** designed to grow alongside your business and support future expansion.

"Lincoln is a dead zone for cell service and it's a constant problem for us. Broadband's really changed our ability to communicate with anyone that needs to get ahold of us, and I am able to see real-time updates from dispatch which is not something I was able to do before."

— Jake Canavan

FIRE CHIEF | LINCOLN VOLUNTEER FIRE DEPARTMENT

Connecting New Mexico businesses, communities and networks

From local businesses to regional carriers, PVT delivers the infrastructure, technology, and expertise that keep New Mexico connected.

Move your business forward

Whether you're running a storefront, managing a team, or serving customers every day, PVT provides the technology, security, and local expertise businesses need to operate efficiently and grow with confidence.

Scalable Solutions for Carriers

Reach underserved markets with dependable transport infrastructure from local experts who understand New Mexico's terrain, permitting landscape, and the complexities of network expansion.
